

QParents at Corinda SHS

The QParents web and mobile application provides an easier way for you to interact with our school. Parents will have secure, online access to their child's student information, anytime, anywhere, through a smartphone, tablet or computer.

If you are already a QParent user, you will be able to add your child's records at our school after commencement in the new school year.

Parents/Carers with an active email address recorded in OneSchool will receive an invitation containing a unique invitation code after your student commences at our school. Each email address can only be used to register for one QParent Account. Please ensure your email contact details are updated at your child's primary school in readiness for the commencement of the new school year.

Simply follow the instructions in that email or letter to complete the QParents account registration process. Initial registration and addition of students to your account must be done on a desktop or laptop computer. Once registered, you will then be able to access QParents using your mobile device (via web browser or by downloading the iPhone or Android App).

QParents allows parents to connect instantly with our school to access and manage their child's student information, including:

- Attendance and absence details, as well as the ability to notify the school of an absence
- Behaviour details
- Academic report cards
- Class timetables
- Viewing unpaid invoice details, payment history, and making payments online
- Viewing and updating personal student details, including medical conditions and address
- Enrolment details
