

GRADUATE PROGRAM

International Student Spotlight

Nana from Japan

Since arriving at Corinda State High School 18 months ago, Nana has embraced every opportunity to grow both academically and personally. Drawn to the school's outstanding Tennis Excellence program and welcoming environment, she has developed new skills, gained confidence and discovered a greater sense of independence while studying in Australia.

A passion for tennis: Corinda's Tennis Excellence program was the main reason Nana chose to study here. She enjoys training alongside like-minded athletes who are all working towards their goals. The positive and focused environment encourages students to challenge themselves while supporting one another, making it one of Nana's favourite parts of school life.

A different school experience:

Compared to schools in Japan, Nana was surprised by the amount of technology used in Australian classrooms. Digital learning tools, laptops and projectors play a significant role in lessons, creating a learning environment that is very different from the textbook-based approach she was used to at home.

Learning through language:

English as an Additional Language is Nana's favourite subject because it helps her strengthen her communication skills and grow more confident using English every day.

Life with Homestay: Living away from family has been one of the most rewarding aspects of Nana's journey. Living with a Homestay family has helped Nana become more independent and confident, while developing valuable life skills and responsibilities.
