Our school initiatives are on track to meet or exceed our targets

During 2018, we focused on maximising the benefits of this funding for our students. After reviewing our 2018 *Investing for Success* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our initiatives to ensure that every student succeeds.

Initiatives implemented include:

- Development of Teaching and Learning HUB with a dedicated team of support staff to oversee explicit teaching in Literacy and Numeracy, targeted intervention programs and building staff capability with the implementation of Write That Essay. A sharp focus on improvement in pedagogical practice was implemented through the implementation of Professional Learning Communities, Teaching and Learning coaching and mentoring and observations from walk throughs and learning walks.
- The introduction of the new House Structure, supported by the employment of House Masters, allowed the coordination of a structured support system to improve student engagement, attendance and behaviour, while delivering a coordinated pastoral care program using the Positive Education framework.
